PROFESSIONAL SUMMARY

I'm a freelance data Analyst with over 2 years hand on experience of transforming messy data into insightful reports that help startups make smarter business decision. I use Excel, SQL, Python, Power BI, and Tableau for data analysis, visualization, and automation. With a proven record of standardizing data that reduces error rate by 40%. Also, created automated Excel report to track marketing performance. Strong expertise in data validation, reporting automation, and trend analysis to support business intelligence and strategic decision-making.

TECHNICAL SKILLS

Data Analysis Tools	*Microsoft Excel (Advanced), Power BI, Tableau, Google Sheets.*
Programming Languages	*Python (Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook).*
Databases & SQL	*PostgreSQL, Microsoft SQL Server (Data cleaning, Validation).*
Visualization Tools	*Power BI (Data Modeling, DAX), Tableau, Dashboard & Visualization.*
Other Tools	*Detail oriented, Problem solving, Effective communication, Team collaboration, Critical thinking.*

WORK EXPERIENCE

Data Analyst | Freelance

Remote • Month Year – Month Year

- *Implemented cost-control measures resulting in a 15% reduction in operational expenses.*
- *Streamlined financial reporting processes, by building automated dashboards in Power BI enhancing overall efficiency by 20%.*
- *Sales performance dashboard that track KPIs and improve YoY profit by 14% using Excel and Power BI.*
- *Standardized raw financial datasets improving data quality and reducing error rates by 40% using Python*

Data Science Job Simulation | Lloyd's Banking Group

Remote • Oct 2025 – Dec 2025

- *Completed a job simulation involving customer churn prediction for the Data Science & Analytics team at Lloyds Banking Group.*
- *Developed and implemented a predictive model using random forest and other machine learning algorithms, achieving an ROC-AUC score of 0.82.*
- *Conducted advanced data pre-processing, including handling missing values, encoding categorical variables, and feature scaling, utilizing Python libraries such as pandas, scikit learn, and matplotlib.*
- *Performed comprehensive model evaluation and tuning, optimizing hyperparameters with GridSearchCV, and applied feature importance analysis to derive actionable business insights.*

Data Analyst & Visualization | Accenture

Remote • Feb 2025 – Apr 2025

- *Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture.*

- *Cleaned, modelled and analyzed 7 datasets using SQL to uncover insights into content trends to inform strategic decisions.*
- *Prepared a PowerPoint deck and video presentation to communicate key insights for the client and internal stakeholders.*
- *Managed month-end close processes, reducing closing time by 25%.*

Data Analyst Intern | Excelerate

Remote • Aug 2024 – Sep 2024

- *Supported senior analyst to clean, analyzed and develop dashboard to discover underperforming Ad campaign that saves cost by 18%.*
- *Created automated Excel reports to track marketing performance trends.*
- *Assisted in preparing client-ready visualizations and insights.*
- *Collaborate with teams to develop and implement financial strategies, that result in a 10% increase in revenue.*

DATA ANALYTICS PROJECTS

Bank Loan Financial Analysis.

Tools: Power BI

- *Brief description: Analyzed customer loan data to monitor borrowers' risk.*
- *Result: Developed a comprehensive Bank Loan Intelligence System that analyzes over $435M in loan data and visualizing key metrics like a 13.3% average DTI.*
- *Link: alabiibrahim.github.io/Financial-Loan-Analysis-2021/*

Scalable Relational Database Architecture.

Tools: SQL (SSMS).

- *Brief description: Designed a relational database that follows industry standard for security, maintainability and scalability practices.*
- *Result: Successfully built relational database that handles the core backend requirements of a modern digital platform.*
- *Link: alabiibrahim.github.io/Industry-Database-Design---SQL/*

Business Sales Intelligence Report.

Tools: Excel.

- *Brief description: Analyzed sales data to get insights to profitability, regional risk, and customer behavior.*
- *Result: Identified revenue drivers across 300 customers and 50 product lines.*
- *Link: alabiibrahim.github.io/Business-Sales-Intelligence-Report/*

CERTIFICATIONS& EDUCATION

- **Google Data Analytics Professional Certificate** - Google / Coursera, 2024
- **Data Visualization Intern** - Excelerate, 2024
- **IBM Data Analyst Professional Certificate** - IBM / Coursera, 2024
- **High School Diploma** – Marigold College

TECHNICALS

SQL (Joins, cte, subqueries) • Stake holder reporting • Report Automation • A/B testing • Business Intelligence.
